

DEEP CYCLE SERIES

VRLA AGM Batteries

Specifications

Deep Cycle Series

6 Volt Series:
Capacities, 200 Ah – 380 Ah

12 Volt Series:
Capacities, 17 Ah – 260 Ah

Features

Maintenance Free, VRLA , Absorbed Glass Mat Design

Can be operated in horizontal or vertical position

Manufactured under a certified ISO9001 quality system

Neutron Power brand, exclusive to YHI Power.

Neutron Power Deep Cycle Series – VRLA AGM Batteries

Applications

- Recreational Vehicles
- Electric Scooters
- Solar
- Marine
- Medical

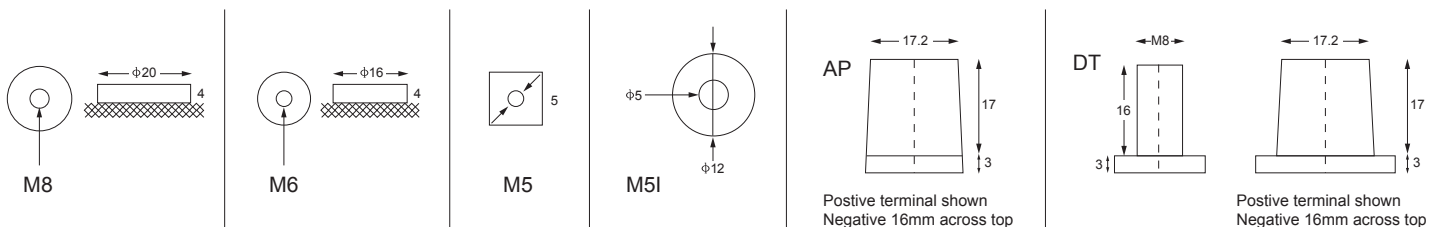

General Specifications

Battery Model No.	Nominal Voltage (Volts)	Nominal Capacity C20 (Ah) ²	Length ¹ (mm)	Width ¹ (mm)	Height ¹ (Overall) (mm)	Weight (kg)	Terminal Type
NPD62000A	6	200	260	180	251	29.8	M8
NPD62000B	6	200	306	169	226	30	M8
